### Board Meeting Minutes

- As this was the first meeting of a reconstituted Area A Board there was no announcement to the area membership or official agenda published.
- Official appointment of David Trude as the Area A Rep to the Regional Board by the other board members.
- The Corinthian adjustments to encourage cruiser/racer participation was discussed
  - Ventura YC has a simple form for their Wed Wednesdays for those wanting the adjustments. The items have been slightly adjusted to fit the area and encourage boats to come out.
- Dave Trude discussed the Olson 25 that was dinged 1 sec/mile (at the last regional meeting) for having a small sprit (beyond the 6" limit) to make the Aysm easier to gybe when single handing the boat. Dave thought it should have been allowed as it only helped in sail handling. Anything to get people out on their boats, spending money on their boats and promoting sailing businesses is good. If there is nothing done to increase the actual speed of the boat, it should be allowed. This is something the Regional board must address.
- The Majority only want to meet when an owner requests a review.
